Professional Profile

Junior Front-end Developer with hands-on experience building responsive and functional web interfaces using HTML, CSS, JavaScript and React. Experience working on real institutional projects, collaborating with stakeholders and translating requirements into usable web solutions. Solid foundation in C# and SQL Server, enabling effective interaction with back-end logic.

Education

Universidad Autónoma de Centro América (UACA)

- **Systems Engineering** (Expected graduation: 2026)

Language

- **Spanish:** native
- **English:** B2

Professional Experience

➤ **Expertech – Infrastructure Technician:**

1 June 2025 – 23 September 2025

- **Provided IT infrastructure support for corporate clients**
- **Performed preventive and corrective maintenance on servers and networks**
- **Diagnosed and resolved hardware and software issues**

➤ **ASCADA - Institutional Website Development:**

2 February 2025 - 28 August 2025

- **Developed and maintained an institutional website using HTML, CSS and JavaScript.**
- **Implemented responsive design for desktop and mobile devices.**
- **Collaborated with stakeholders to gather requirements and apply changes.**
- **Improved content structure and usability.**

Academic Works

➤ **HTML5, CSS3 and JS**

- Developed multiple responsive product-based web pages using HTML5, CSS3 and JavaScript
 - Focused on UI structure, layout, and client-side logic
 - Applied basic back-end concepts to understand data flow and integration.
-

➤ **Networks IPV4 and Networks IPv6:**

- Designed a simulated network connecting two buildings using IPv4 and IPv6
 - Configured basic services such as DNS, DHCP and HTTP.
-

➤ **C# and SQL Server:**

- Built academic projects such as billing systems and hotel reservation systems.
- Implemented layered architecture (business, data, presentation layers).
- Designed and managed relational databases using SQL Server.

Basic Skills

Front-end: HTML5, CSS3, JavaScript, React

Back-end: C#, SQL Server

Tools: Git, Visual Studio, VS Code

Network: Basic networking knowledge

Infrastructure: Intune, Active Directory, FortiGate
