Professional Profile

➤ Passionate about web application development with strong skills in **HTML5, CSS y JavaScript**. Motivated to expand my experience in programming languages such as **C# and Visual Basic**, as well as deepen my knowledge of **IPv6 networks and SQL Server**.

<u>Education</u>

Universidad Autónoma de Centro América (UACA)

- **Feb 2018-2025** (my last year) Systems Engineering.

Language
- **English:** B2
- **Spanish:** native language

Academic Works

➤ <u>**HTML5, CSS3 and JS:**</u> I have created several web page projects for selling products with HTML, CSS and JS. More than everything focused on the Front-end but with knowledge in Back-End.

➤ **Networks IPV4 and Networks IPv6:** I have created a project of connections between two buildings. It also includes servers: HTTP, DNS and DHCP, vlan2 for the facilities of both buildings. Also, redistributions in routers and frame-relay.

➤ <u>**C# and SQL Server:**</u> I have worked with C# and SQL server projects such as billing system and hotel reservation system. All with "Programacion por Capas".

Professional Experience

➢ **Expertech – Infrastructure Technician:** San José, Costa Rica |
1 June 2025 – 23 September 2025

I provided technical support to corporate clients for IT infrastructure. I performed preventive and corrective maintenance on networks, servers, and workstations. I diagnosed and resolved hardware and software issues using internal tools.

➢ **ASCADA - Institutional Website Development:**
2 February 2025 - 28 August 2025

I designed and developed the official website for the Community Development Association (ASCADA). I implemented HTML, CSS, and JavaScript. I collected and structured institutional content for digital presentation, optimizing the page for various device sizes.

Basic Skills

SQL Server	Visual Basic(.NET)
HTML5, CSS3	C#
JavaScript	Networks (IPv4-6, Vlans,HTTP,DNS,DHCP)
Infrastructure (AD, Fortigate)	Virtual Machine (Azure)
